# Abbas Moosavi

React Native/Mobile Developer

Iran, Tehran & Esfahan | +989306373499 | moosaviabbas93@gmail.com

🌐 abbasmoosavi.ir/ 🌐 irioapp.ir

I'm an energetic, highly positive, hard working developer specializing in mobile, web and server applications.

My main goal is to find out about development resources and new technologies from different sources.

I enjoy encountering challenges for which.

I like clean and beautiful code and I try my best to make the code I write very clean, beautiful and legible.

I try to figure out all possible solutions but then act based on best practices and standard ways. Once I take on a new project in web development, by using the latest technologies I hope to create
innovative software products that are equally beautiful and functional and also create a unique product with an experience worth remembering for users.

I have very good experience and good examples in this field using the following tools:
React native, Android, Flutter, Kotlin.
I also created server-side applications using the following tools:
Adonisjs, Laravel, Djangio python.

Work experience

React Native/Mobile Developer   2022 Nov - Present
Swipte

- Currently serving as a React Native/Mobile Developer at Swipte, a USA-based company.
- Develop and maintain Swipte customer and Swipte merchant applications, utilizing React Native technology.
- Collaborate with cross-functional teams to gather requirements and implement new features and enhancements.
- Ensure the performance, reliability, and scalability of the applications through rigorous testing and optimization.
- Contribute to the design and architecture of the applications, following best practices and industry standards.
- Actively participate in code reviews and provide constructive feedback to improve code quality and maintainability.
- Stay updated with the latest trends and advancements in mobile development, incorporating new technologies and techniques into the applications.
- Work closely with product managers and stakeholders to understand business needs and deliver high-quality solutions.

React Native/Mobile Developer   2022 Jun - 2023 Mar
Mom

- Developed and maintained the Mom application as a React Native/Mobile Developer.
- Leveraged expertise in React Native to create a user-friendly and efficient mobile application.
- Collaborated with cross-functional teams to gather requirements and ensure the successful delivery of the Mom application.
- Implemented best practices and coding standards to ensure the quality and maintainability of the codebase.
- Conducted thorough testing and debugging to identify and resolve any issues or bugs.
- Actively participated in the full software development lifecycle, including design, development, testing, and deployment.
- Demonstrated strong problem-solving skills in addressing technical challenges and optimizing application performance.
- Maintained clear and effective communication with stakeholders to ensure project alignment and timely delivery.

React Native/Mobile Developer   2020 Oct - 2022 Feb
Improver Digital Tech, Istanbul

- Developed and launched three mobile applications: Wingle (a dating app), Meetly (a dating app), and Minimidimaks (a photography app), using React Native.
- Implemented Redux, Saga, and Axios to manage state and handle asynchronous operations, ensuring smooth and efficient app performance.
- Utilized Android Java and iOS Objective C to build robust and user-friendly interfaces, enhancing the overall user experience.

Skills

React native
Extensive experience of working with Redux, Context, ...
for android and ios mobile application

iOS
Extensive experience of working with objective c and swift.

Adnisjs
use in backend

Android Java
Laravel

Android kotlin

Php

Flutter
for android and ios mobile application

Portfolio

Some of the most important examples of my work during the programming era

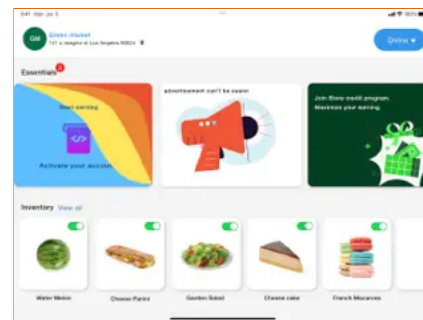

Swipte

- Integrated various features such as Context, GraphQL, Socket, Map, WebRTC, Video Call, and Chat, providing users with a comprehensive and interactive app experience.
- Worked extensively on photo-related functionalities, optimizing image processing and storage capabilities.
- Collaborated with cross-functional teams to gather requirements, design app architecture, and deliver high-quality mobile applications.
- Conducted thorough testing and debugging to identify and resolve any issues, ensuring the stability and reliability of the applications.
- Stayed updated with the latest industry trends and technologies, continuously improving skills and knowledge in mobile app development.

React Native/Mobile developer   2019 Feb - 2020 Sep
### Iranian Raimun System COMPANY

- Designed and programmed mobile applications for Isfahan Seminary, including Taninvahy and Hamnafas, using React Native, Redux, Saga, Axios, and Context, resulting in improved efficiency and user experience.
- Developed and implemented mobile applications for company management ideas, such as RaiQ, Raifood, and Avatv, utilizing Flutter, Android Java, iOS Objective C, GraphQl, Socket, Map, WebRTC, and Video Call technologies.
- Played a key role in the company's growth, contributing to the expansion from 5 employees to 50 employees, through the successful development and deployment of innovative mobile applications.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and develop robust and scalable mobile solutions.
- Conducted thorough testing and debugging of applications, ensuring high-quality and error-free deliverables.
- Actively participated in code reviews, providing valuable feedback and suggestions for improvement to enhance the overall quality of the applications.
- Stayed updated with the latest trends and technologies in mobile development, continuously improving skills and knowledge to deliver cutting-edge solutions.
- Maintained clear and concise documentation, facilitating seamless knowledge transfer and collaboration among team members.
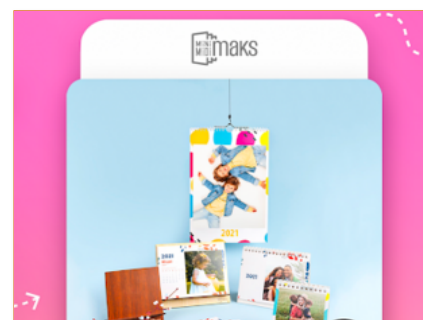

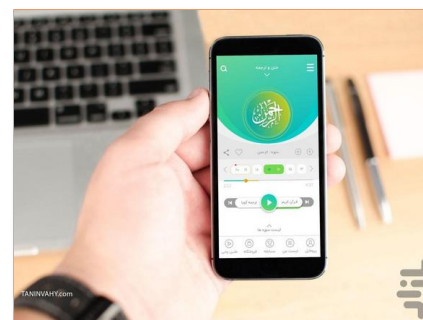

Fullstack developer   2014 - Persent
Self Employers

- Successfully managed multiple simultaneous projects, including personal ventures and client work, showcasing strong multitasking and time management skills.
- Developed and launched Irio App, a highly acclaimed and widely recognized mobile application available on the Cafebazaar store, demonstrating expertise in full-stack development.
- Collaborated with cross-functional teams to design and implement robust and scalable software solutions, utilizing technologies such as React-Native, Redux, Saga, Axios, Android Java, iOS Objective C, Context, GraphQl, Socket, Map, WebRTC, Video Call, Chat, Adonis-js, Php, Flutter, MySQL, SqlServer, and Laravel.
- Took complete ownership of personal projects, handling front-end, back-end, and mobile development, showcasing versatility and proficiency in various programming languages and frameworks.
- Demonstrated a strong commitment to quality by conducting thorough testing and debugging, ensuring the delivery of high-performance and reliable software applications.
- Actively participated in code reviews, providing valuable feedback and suggestions to enhance the overall quality and maintainability of the codebase.
- Maintained clear and concise documentation, facilitating seamless knowledge transfer and collaboration with team members.
- Stayed updated with the latest industry trends and technologies, continuously expanding skill set and adapting to emerging technologies.

Swipte Merchant

Mom App

Wingle

Minimidimaks

Taninevahy

Android and React Native Developer
Dana COMPANY
2018 Jun - 2019 Feb

- Developed three Android applications for the Battery Delivery Project of Isfahan Nano Mana Energy Company, including the Customer, Servicer, and Wholesaler applications.
- Utilized Android Java, Redux, Saga, Axios, and Context to create robust and user-friendly mobile applications, ensuring seamless functionality and optimal user experience.
- Collaborated closely with cross-functional teams to gather requirements, design application architecture, and implement features that met the specific needs of each user group.
- Implemented Map functionality to provide accurate location tracking and delivery management features, enhancing the efficiency and effectiveness of the battery delivery process.
- Conducted thorough testing and debugging of code, ensuring the stability and reliability of the applications across different devices and operating systems.
- Maintained clear and concise documentation, facilitating ease of understanding and future maintenance of the applications.
- Actively participated in code reviews and provided valuable feedback to team members, fostering a culture of continuous improvement and learning.
- Stayed updated with the latest trends and technologies in Android and React Native development, continuously enhancing skills and knowledge to deliver cutting-edge solutions.

Android developer
Omid Isfahan
2017 Jun - 2018 Jun

- Developed and implemented the iBazar application, a data visualization tool for cities, utilizing Android Java, Restful API, XML, Retrofit, JSON, and Map technologies.
- Collaborated with cross-functional teams to gather requirements and ensure the application met client specifications.
- Utilized Restful API and XML to retrieve and display city data, providing users with a comprehensive and user-friendly interface.
- Integrated Retrofit and JSON to efficiently handle data communication and processing, enhancing application performance.
- Implemented map functionality to visualize city data geographically, enhancing user experience and data comprehension.
- Conducted thorough testing and debugging to ensure the application was error-free and met quality standards.
- Maintained clear and effective communication with stakeholders throughout the development process, ensuring project milestones were met.
- Demonstrated strong problem-solving skills and adaptability in resolving technical challenges and meeting project deadlines.
